A.M. (Art)Kagin
Celebrating 50 Years in Numismatics
1928-1978

Numismatics is defined as the study or the collection of coins, tokens, medals, paper money and related objects—A.M. Kagin can surely then be described as an authority in numismatics. A.M. (Art) Kagin has devoted his life to the study and collection of numismatic items from a historical, artistic and scientific viewpoint. Art recalls with fond memory the day an elderly lady gave him the coin that sparked his interest in numismatics. The year was 1926. The coin was an 1883 no CENTS nickel. The lady represented the coin as an “error” and urged young Kagin to hold on to the coin because someday it would be worth a fortune. The coin did not become valuable but it did serve as the starting point of his interest in numismatics. At the age of twelve he had decided

Celebrating A.M. Kagin's 50 Years in Numismatics

that instead of "playing with coins" part time, it would be more fun to "play with coins" full time.

In 1933 Art began working for the Hollinbeck Stamp & Coin Company in Minneapolis. Three years later he moved to Des Moines, Iowa to manage a newly opened branch for Hollinbeck's. Des Moines proved to be too small for a stamp and coin shop; therefore, he determined to increase his market by going national. In 1938 he was promoted to General Manager of the Numismatic Division of all Hollinbeck stores in Minneapolis, Omaha, Des Moines, Louisville and Duluth.

By 1940 the opportunity to improve his position from a partner to owner was realized. Art purchased the remaining Hollinbeck interest. The stores in the other cities were closed due to the war effort and stock was consolidated in Des Moines. His brother, Paul, joined him and they enjoyed a close relationship until 1974. Paul is now assuming a more relaxed role by traveling less and continuing the individual type of operation with personalized service.

The first major promotion Art undertook was the Whitman Coin Cards in 1936. The concept of people filling a card with eighty-one different 1909-1936 Lincoln cents and redeeming them for \$3 was fascinating. He sold the 1909-S VDB, 1909-S, 14-D, and 31-S to recover his \$3 cost and then placed the remaining coins back in circulation. By 1938, the tremendous distribution of the Whitman Coin Cards by A.M. Kagin created sufficient collectors that about 20 coin clubs were formed in Iowa. He helped organize the Iowa Numismatics Association in Iowa City in early 1938 and Iowa became the foremost coin collecting state in the nation.

Much has changed since the early days when coins were plentiful and the customers were few. Art Kagin has initiated changes in the numismatic field that other dealers have since adopted. He is a trend setter and a pioneer. Most recently he has made use of color slides as a standard procedure at all auctions. He also stresses the importance of complete ANA Certification for all major coins in Kagin auctions.

There are many people who served as an inspiration and educational source for Art throughout the years. Wayte Raymond, William Philpott, Jr., Lou Werner, B.G. Johnson and B. Max Mehl to list a few. He spotlights Dick Yoeman because he had the foresight to change coin collecting from a hobby of a few, to a hobby of the masses.

To Arthur Kagin, numismatics is a "way of life". He sees it as an education in the broadest sense of the word. He thinks it should be taught in the universities and secondary schools. He sees the trend centering on collecting as an investment in addition to its fascination as a hobby. He also predicts that the field will become more sophisticated. As values increase, the knowledge essential to both the collector and professional must also increase. It is a source of gratification and fulfillment of a dream that his son, Don, has chosen numismatics as his profession. Don is presently working on a doctorate degree in numismatics. His thesis will be printed as a book dealing with private and territorial gold coins of the United States.

Art and Don formed the Foundation for Numismatic Education last August at the ANA Convention. It is now incorporated in Washington, D.C. Its original purpose was to guarantee publication of worthwhile numismatic manuscripts regardless of their economical feasibility. The purpose has now been expanded. A complete list of purposes and other material will be sent free of charge to anyone interested in furthering numismatic education.

Art Kagin is a man that lives by his philosophy. He is "living" numismatics, a field he loves. He is totally committed to disseminating the personal knowledge and expertise that he has to offer.

"The mark of a true professional is to make a contribution to his field."

Arthur M. Kagin is a man that lives by his philosophy. He "lives" numismatics, and is totally committed to disseminating the personal knowledge and expertise that he has acquired in fifty years. "The mark of a true professional is to make a contribution to his field."

As stated in "Who's Who in America", ARTHUR MEYER KAGIN'S philosophy can be summed up as "Virtually all goals in life can be achieved if one strives hard enough and believes strongly enough."

TERMS GOVERNING SALE

This is a public and mail bid sale, and sales are governed by the following terms:

All coins and currency are sold unreserved to the highest bidder.

Your bids, which represent your limits, will be executed without a commission charge.

Mail bidders are responsible for any errors made in their bid sheets. We cannot accept responsibility for your errors, either in lot numbers or bids.

Bidders for the first time must establish credit references in advance or deposit an amount equal to 25% of the total amount of their bids.

Bidders who are unknown to us, who wish to pick up their coins at the sale must make prior arrangements with Kagin's.

Payments for lots must be made when the coins are picked up or when the invoice is received.

All coins are guaranteed to be genuine and as described.

Lots purchased by floor buyers **CANNOT** be returned.

Lots purchased by mail bidders cannot be returned without our written permission.

All claims for adjustments must be made in writing within 5 days following the receipt of the coins or invoice. Late remittance for purchases is cause for negating this privilege.

Title for the materials remain with Kagin's Numismatic Auctions, Inc. until full payment is received by Kagin's.

All lots delivered in Missouri are subject to Missouri Sales Tax Laws. Postage and insurance will be charged on lots mailed.

If there is a dispute between bidders, the auctioneer will determine the final award.

If there are duplicate bids, the lot will be awarded to the first bid received by Kagin's.

All mailed bids must be received in Des Moines 3 days prior to sale date.

All bidders must be of legal age (18) or have their bid sheet signed by an individual of legal age, accepting responsibility for payment.

Late bids may be mailed by special delivery to Kagin's c/o Chase-Park Hotel, 212 North Kingshighway, St. Louis, Mo. 63108. Late bids must be received by Kagin's no later than the morning of Friday, May 12, 1978. Since bids are frequently received after the sale, late bidders are urged to phone their bids to Kagin's at Chase-Park Plaza Hotel (314-361-2500).

HOW TO MAKE A BID

What to Bid On

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins be sure to check the catalog index.

When you have made this initial list go through the catalog and select the lots you desire. Now transfer the lot numbers of the lots you desire to your bid sheet.

How Much to Bid

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots the number of successful bids will be relatively small. This is controlled by a very active market. You can safely extend your bidding (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed we will then terminate your bidding.

Remember that your bids are **limits**. It is possible and quite often does occur that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the **second highest** mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If additional bids are received from the floor bidders we will bid up to the limit of \$500.00. If bidding continues above the \$500.00 then that floor bidder will be awarded the lot.

How to Fill Out The Bid Sheet

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in it's proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have checked one of the increase boxes you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the **TERMS OF THE SALE**.

Mail bidding allows you to participate in the sale without being present and having A.M. (Art) or Don Kagin acting as your personal representative at the auction. This is the same as you being there! Historically auctions have been the best method of obtaining rarities for your collection or securing coins most economically. We certainly hope you will participate in our future sales.

ON ANA CERTIFICATION

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The ANACS staff examines and when necessary, will conduct non-destructive tests on submitted numismatic items. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS' opinion concerning the authenticity of the item.

All items which are determined to be genuine and the majority of them are, are then issued a certificate of registration. This certificate records an identifying code number. This is accompanied by the statement of authenticity and documented photographs.

In keeping with the non-profit status of ANA, the charge for this valuable certification service is intended only to cover the actual operating cost necessary to maintain the service. More information concerning this fine service can be obtained from: ANACS, 818 N. Cascade, Colorado Springs, CO 80903

For the first time in a rare coin auction Kagin's Numismatic Auctions is providing complete A.N.A. Certification on your rare and unusual coins. Kagin's thinks that this certification service is essential in assuring the authenticity of the coins you purchase. This service guarantees you the genuineness of material handled in a Kagin's Auction. All of the coins pictured above their respective lot descriptions have an accompanying ANACS Certificate and documentation photographs of the coin.

KAGIN'S numismatic innovations

- Complete A.N.A. Certification and photographs of all rare and unusual coins.
- Conducted largest auction in the history of the ANA Convention—more than 5,000 lots.
- Enlisted the greatest number of consignors at any auction—more than 180.
- Drew a record breaking number of bidders—more than 2,000.
- Introduced the use of color photographs in an ANA sale.
- Introduced the use of color slides as a standard procedure at all Kagin's Auctions.
- Bidding by lots rather than by pieces.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years. It is also the standard that will be used by the A.N.A. grading board. We often use the following abbreviations and descriptions:

POOR-1: Barely recognizable as to type.

FAIR-2: Showing minor detail.

AG-3: ABOUT GOOD-3, Rims worn down into lettering but interior detail will be visible.

GOOD-4, 6: All interior outlines visible.

VG-8, 10: VERY GOOD 8 and 10, About 25 percent of the interior detail will be visible.

FINE-12,15: 30 per cent to 50 per cent of the interior detail will show.

VF-20, 25, 30, 35: VERY FINE 20 thru 35, 60 per cent to 85 per cent of the interior detail will show. 35 (Borderline EF).

EF-40, 45: EXTREMELY FINE 40 and 45, 90 per cent of all interior details will show.

AU-50, 55: ALMOST UNCIRCULATED 50 and 55, Bare traces of friction at the highest points. 55+ (Borderline UNC).

UNC-60: Mint state (MS) 60, strictly Uncirculated with no rub or friction, i.e. NO WEAR.

CHOICE BU 60+: Mint state (MS) 60+, a Choice Uncirculated specimen nicely struck and with nice lustre.

GEM BU-65: Mint State (MS) 65, a Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions.

Superb GEM BU-65+: Mint state-65+, If you look real hard with strong magnification you might find a flaw.

Perfect GEM-70: Mint state -70: Once in a great while a perfect coin is sold.

PROOFS & SPECIMENS: Proof and Specimen are methods of manufacture not grades.

All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-60+, GEM Proof-65

SUPER GEM Proof-65+.

Lots 1 to 586
1:30 PM

HALF CENTS 1793-1857

1. 1793 Basically **Strong Very Fine** in sharpness but pitted surface. Popular "One Year Type." Probably worth around Fine trends value of 1,200.
2. 1793 VG-10, detail suggestive of Fine, but porosity present. Still, attractive example of this key type coin without the multitude of nicks and scratches which plague early copper coinage. **PLATE**
3. 1794 G-6, detail supports VG, but porous.

4. 1800 **UNCIRCULATED** brown with traces of Red, lovely smooth surfaces, **RARE THUS**. Popular "One Year Type" (single leaves top) except for extremely rare 1802. Superior to most. Acquired several years ago at 1,000.
5. 1804 EF-40, "Spiked Chin," retoned olive and reddish-brown, pinpoint nicks obverse.
6. 1804 P.L. 4 stemless. AU-55, Sharp strike, frost on high spots. An impressive piece removed from Mint State due to light friction.
7. 1809/6 **Classic Head**, EF-40, Sharp, but light scratches on cheek. Old cleaning but now pleasing patina.

8. Lot 5: 1826 Ch VF-30; 1833 and 1850 EF-40; 1834 and 1835 Ch EF-45. Trends 280.
9. Lot 5: 1828 & 1834 EF; 1849 VF; each recolored: 1829 EF-45 choice brown; 1851 EF-40.
10. 1832 EF-40, Retinted to appealing olive-gold hue; 1855 VF "whizzed."
11. 1833 MS-60, Sharp strike, lovely iridescent surfaces. 150.
12. 1837 Token, Sharp Extremely Fine, edge nick. Far superior to most seen! 150.
13. 1855 Borderline Uncirculated, some red, faint friction. 150.
14. 1856 Uncirculated brown, nice smooth surfaces. Cat. 280.
15. 1857 RED UNCIRCULATED with a few flyspecks. Low coinage; RARE THUS. 450. PLATE

LARGE CENTS

1793-95 LETTERED EDGE PLANCHET STRUCK WITH BRAZIL COIN DIES

1½x's Enlargement

16. **LETTERED EDGE PLANCHET** with single leaves, struck with 1756 BRAZIL 6400 reis dies, nice Extremely Fine. The "Pride and Joy" of the present owner who spent years in trying to solve the enigma of its origin. To date, he has been unsuccessful and it is now his desire that "someone else try solving this puzzle." The owner has had offers from those contacted in his research, several in the low to medium four figure range. **A UNIQUE "COIN WITH A STORY"! COLOR PLATE**
17. See opposite page.
18. 1793 Chain AMERICA, G-4, Hair ends and eye show, lightly porous, slight rim dent.
19. 1793 Chain AMERICA, AG-3. Though well-worn and somewhat porous, this is an entirely acceptable "type" example of this famous and popular issue. No nicks, scratches, dents to speak of.
20. 1793 Wreath, VG-10, handsome chocolate brown, nearly full border denticles, some detail of Fine sharpness, light porosity. 600. **PLATE**

1793 "CONDITION-CENSUS" CHAIN AMERICA CENT

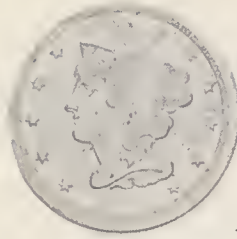

1½x's Enlargement

17. 1793 S-2, CHAIN AMERICA, MS-50+, CHOICE, SHARP ABOUT UNCIRCULATED, WELL-CENTERED AND FULLY STRUCK UP! Lustrous deep brown surfaces with hints of lighter color; only slight friction on highest curls. Close inspection reveals a faint thin pinscratch above date (resembles a die break) and a minute (almost imperceptible) edge nick above first A in America. A lovely eye-appealing aesthetically satisfying specimen of the first year of our coinage. "CONDITION-CENSUS" is (60-55-55-55-50-45). We believe this remarkable specimen is very close indeed to MINT STATE (we doubt if it has ever circulated) but have deducted points for the above named imperfections. Perhaps we are being unduly severe in our grading and urge personal inspection of this lovely copper. **WE BELIEVE THIS "LUSCIOUS" SPECIMEN TO BE THE CHOICEST AVAILABLE TODAY!** Who knows how many years may elapse before a top-grade one is again offered? We note the "Coin Dealer Newsletter" indicates that dealers have been offering to pay \$12,000 for an AU specimen for over a year but NONE APPEAR TO HAVE BEEN AVAILABLE! What a dealer would actually pay for a highly desirable AU specimen such as this then becomes problematical — \$14,000, \$15,000, more? Based on demand and supply, we believe this "ONCE IN A DECADE" specimen should fetch at least \$20,000 and perhaps closer to \$25,000. It will be interesting to note the price this beauty actually brings compared to the value arrived by using a formula.

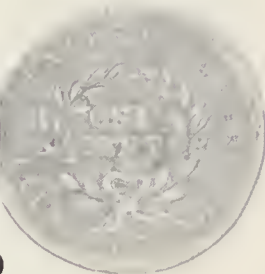

The first design used, a chain of 15 links (states) received much criticism as emblematic of slavery and was soon changed to a wreath. The third type bore a sterner bust and Liberty Cap (French influence) with a simpler reverse. The first year types have always been a favorite and have been coveted (particularly in top-condition) by variety, date and type collectors. I (Art—A. M. Kagin) take great pleasure in cataloging one of my favorite coins on my Golden Anniversary in Numismatics. May the new owner derive as much pleasure in owning this prize as I did in "handling" it.

1794 LARGE CENTS

The "key" date on which Dr. Sheldon based his system of rarity, basal value, condition census, etc. His "PENNY WHIMSY" book evolved the scale of 1 to 70 condition grades which has now been adopted for other series. Possibly the most popular date with variety collectors.

- 21. 1794 S-29, R-3 VF-20. Valued double "common" R-1 or 700. **PLATE**
- 22. 1794 S-30, Borderline Extremely Fine, attractive light brown, clean planchet. Surely worth Guidebook value for "common" 1794 EF or 850. **PLATE**
- 23. 1794 S-36, Upper range R-6, not far from R-7! Very Good obverse, Fine reverse. Very close to "CONDITION-CENSUS" which includes Fine. Valued 6 times "common" 1794 or 600 in only VG. A "Famous Coin" on many want-lists. **PLATE**

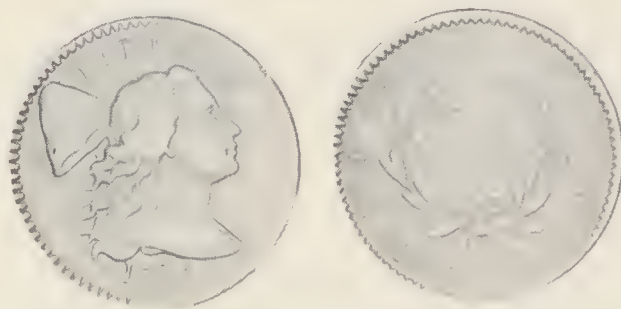

- 24. 1794 S-42, Upper range R-5, Sharp Very Fine but short mark in field and tiny edge nick. Valued 5 times "common" 1794 or VF at over 1,500.
- 25. 1794 S-50, R-6, Fine obverse with light line across, fine reverse except right legend faint and a few faint pinscratches. Close to "Condition-Census" which includes Fine. Valued 5 times "common" 1794 or VG at 500. **PLATE**
- 26. 1794 S-58, R-3, Basically Very Fine but rough black surface and tiny nicks in cap downgrade it to about Fine or so. Valued double "common" 1794 or Fine at 350.
- 27. 1794 S-60, R-4, Very Good obv., fair (partly legible) rev. Valued 3 times "common" 1794 or good at 195.

- 28. 1794 S-61, R-4, Extremely Fine obverse, Very Fine reverse, even brown color. Valued 3 times "common" 1794 or Choice VF at 1,800.
- 29. 1794 S-63, R-3, Famous "Fallen 4," basically Very Fine but rough surface. Valued double "common" 1794 Fine or 350.

**ERRORS CAN BE VERY COSTLY
CHECK YOUR BIDSHEET CAREFULLY**

- 30. 1794 S-64, R-5, Famous "missing fraction bar," Sharp Very Fine, porous Chocolate surface. Valued 4 times "common" 1794 or VF at 1,400.
- 31. 1794 S-46, VG-10; 1795 VG-10. Two nice pieces.
- 32. 1794 VG-8, Dark, somewhat porous, edge nicks.

1795 LARGE CENTS

- 33. 1795 S-75, LETTERED EDGE, Very Fine with reverse closer to Extremely Fine, usual minute roughness of surface and edge (better than it sounds). Cat. VF 400.
- 34. Lot 3: 1795 Lettered Edge, plain "ONE CENT" high and low, average VG-8.

1796 LARGE CENTS

- 35. 1796 S-82, Liberty Cap, R-5 "CONDITION-CENSUS" (Among "6 Finest Known"), basically Extremely Fine but "brushed" to remove some porosity of surface. Possibly the 4th or 5th Finest Known (both "25" coins) in "condition-Census." As such, catalogs about 850. **PLATE**
- 36. 1796 S-83, Cap, R-5, About Fine (rx. bit sharper than obv.). Valued about 275.
- 37. 1796 S-87, Cap, R-3, Sharp Very Fine, close to Extremely Fine but some faint lines, chocolate, some porosity. We note a Sharp VF in "Condition-Census." The "common" 1796 catalogs VF 365; this worth? **PLATE**
- 38. 1796 S-88, Cap, R-6, About Good obv. (179 faint), poor rev. (partly legible). "Condition-Census" has a Fine coin. Probably worth 75 to 100.

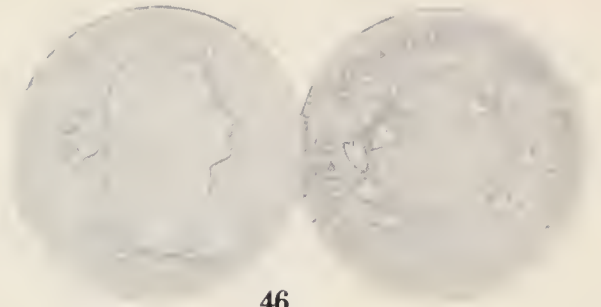

- 39. 1796 S-89, Cap, R-3, borderline Extremely Fine but minute edge dinge, chocolate. "CONDITION-CENSUS"! (35-30-30-25-20-20). VERY RARE THIS NICE! It would not surprise us to see it fetch close to 1,000.
- 40. 1796 S-91, Last Cap type, Very Fine obv., Extremely Fine rev., chocolate. Cat about 600. **PLATE**
- 41. 1796 Cap, VG-8, pleasing chocolate brown; 1796 Draped AG-3.

42. 1796 S-93, R-3, Breaks over ERICA & fraction, About Fine (porous planchet). Valued a little more than "common" 1796 or about 160.
43. 1796 S-95, Draped Bust, "R-7 with only 7 or 8 in collectors' hands"—Sheldon, famous Hyphenated 7-9 variety, basically Fine but rough surface. Could this be the "10" coin in "CONDITION-CENSUS"? Valued over 3 times "common" 1796 or about 400, but if CC then 50% more or about 600. **PLATE**
44. 1796 S-102, Upper Range R-4, Extremely Fine with black porous planchet, minute imperfection. "CONDITION-CENSUS" (45-40-35-30-20-20). Valued 1½ times "common" 1796 or VF 487.50 plus 50% for CC or 730. **PLATE**
45. 1796 S-103, R-6, Famous Rare LIHERTY error, basically Very Fine in Sharpness but heavily eroded surface. We note a Fine coin in CC. Valued almost 3 times "common" 1796 or about 450. **PLATE**
46. 1796 S-105, "Upper Range R-6; possibly 15-20 known"—Sheldon, About Fine (nick at nose, rx. sharper than obv.). Valued 2½ times "common" 1796 or about 425 plus 50% for "CONDITION-CENSUS" (65-25-15-10-10-7) or over 600. **PLATE**
47. 1796 S-108, R-5 but 3 of leading 6 coins in ANS, About Very Good with ONE faint. Valued over 1½ times "common" 1796 or about 150.
48. 1796 S-111, Upper Range R-5, 2 or 6 in CC in ANS, "CONDITION-CENSUS" (55-20-15-12-12-10), Very Good (rough surface).
49. 1796 S-114, Upper Range R-5, WIDELY DOUBLE STRUCK OBVERSE & REVERSE (bottom 179 faint), Very Good. Valued double "Common" 1796 or 190 but added premium for wide double strike.
50. 1796 S-118, R-7, ONLY 8 IN COLLECTORS' HANDS, Very Good obv., Fine rev., brown, nicer surface than usual for grade. "CONDITION-CENSUS" (55-40-30-25-10-7) but with 2 in ANS including the 55, this becomes highly acceptable! Valued 2½ times "common" 1796 or about 300, plus 50% for CC equals 450. **PLATE**
51. Lot 8: 1796 Cap; 1796 Draped; 1797: 1798; 1800; 1801; 1802; 1803; AVE VG-8.
52. 1797 S-121, Grippped Edge, Rev. 1796, R-3, borderline Extremely Fine, center hair strand not fully struck up (massive die breaks), deep chocolate, smoother surfaces than on most seen. Guidebook cat. EF 525. **PLATE**
53. 1797 S-126, R-3, Rare perfect obverse without die break, borderline Extremely Fine, a few pinpoint nicks hardly noticeable, nice even brown. Valued 1½ times "common" 1797; surely worth about EF price for "common" of 400. **PLATE**
54. 1797 S-130, R-2, Extremely Fine, brown. Valued 1¼ times "common" 1797 or 500. **PLATE**
55. 1797 S-134, Small Fraction (separate Major "Type" in Scott's Cat.), Upper Range of R-4, possibly R-5, one of the favorites among old collectors, borderline Extremely Fine but swelled left obverse die causes die failure at ST and some weakness of left leaves, porous reverse. Valued 2½ times "common" 1797 or about 675. **PLATE**
56. 1797 S-138, R-2, Nice Very Fine, typical die failure at S OF, chocolate. Valued 1¼ times "common" 1797 or about 250.
57. 1797 S-140, R-3, Rare early die state with only beginning swelling at point of bust and leaf under OF, borderline Extremely Fine, deep chocolate. Valued 1½ times "common" 1797 or about 400. **PLATE**

58. 1797 3rd rev., Stems AU-50, this piece shows hardly any wear, there being full sharpness and glossy-iridescent surfaces. The surfaces are "grainy" in appearance, though without faults of any kind. One to be seen. **PLATE**

1798 LARGE CENTS

59. 1798 S-145, R-3, 1st hair, Lg Date, swelled rx. die, dark chocolate, Very Fine, grainy surface. Valued double "common" 1798 or about 250.
60. 1798 S-146, Mid-range R-6, Very Good with reverse closer to Fine (rough obv. surface). Desirable as 2 Fine coins in CC! Valued almost 5 times "common" 1798 or about 200.
61. 1798/97 S-150, Close overdate, Upper Range R-5, possibly R-6; Good to Very Good (uneven wear), Rarest overdate. CC includes 2 Fine coins. Valued almost 5 times "common" 1798 or about 140.
62. 1798 S-157, Rusted die variety, R-2, borderline Extremely Fine but rusted die might tend to downgrade it to the uninformed collector. Valued $\frac{1}{3}$ more than "common" 1798 or over 200.
63. 1798 S-165, Upper Range R-5, Fair (mostly legible). Acceptable as 3 Fine coins in CC. Valued 4 times "common" 1798 or about 60.
64. 1798 S-166, 3rd rx., 2nd hair, Extremely Fine, chocolate, edge nick. Cat. EF 250.
65. 1798 S-170, Upper Range R-4, 3rd rx., 2nd hair, Very Fine. Cat. 125.
66. 1798 S-171, Mid-range R-5, Very Fine but dark, porous planchet. Valued over 3 times "common" 1798 or close to 300.
67. 1798 S-173, R-2, basically borderline Extremely Fine but heavily eroded surface, brown. Valued $1\frac{1}{4}$ times "common" 1798 or about 125.
68. 1798 S-176, Mid-range or possibly Upper Range R-5, Very Good. Valued 4 times "common" 1798 or about 140.
69. 1798 S-187, Last variety 1798, Extremely Fine, bluish chocolate. Cat. 250.
70. 1802 S-239 & 241, VF-20 (light scratches, small surface marks); VF-25 (lightly burnished).
71. 1803, Detail well into VF grade but cleverly "whizzed" to appear AU.
72. 1804 VG-10, Detail of Fine but heavily porous planchet. **SCARCE!** 400.
73. 1805 S-269, Scarce pointed 1, Extremely Fine in sharpness but a few short light lines which superficially resemble die breaks, nice light brown color. 250.
74. Lot 3: 1805 VG-10; 1806 F-12; 1807/6 VG-10.
75. 1806 S-270, Nice Very Fine 25, even chocolate color. Worth over cat. VF of 180.
76. 1808 S-278 VF-35, Sharp Very Fine bordering Extremely Fine (faint lines bottom rx). Scarcest 1808 R-3, 1808 EF cat. 400; this rarer one worth? **PLATE**
77. Date Set 7 Classic Head 1808-14, Good-Very Good. 200.
78. 1811/10, Detail of VF but dark and lightly porous. Scarce

1944 STEEL CENT (AUTHENTICATED BY ANACS)

3x's Enlargement

140. 1944 Struck on steel planchet as used for 1943 cents, Sharp Struck About Uncirculated! AUTHENTICATED BY ANACS #4059 12/27/1973. The rarity and importance cannot be overemphasized. It forms part of the select group of "TRANSITIONALS".

The Guidebook presently includes the 1859 and 1860 Half Dimes, 1859 Dime, 1866 Type 1865 Quarter, Half and Collar, 1841 Type 1840 Dime, 1836 Type 1837 Half, etc. Scott also includes 1858 Type 1859 and 1859 Type 1860 Cents, etc. Should the references include this (they have added 1955 and 1972 Double Die Cents, 1937-D 3-Leg Buffalo Nickel, etc.) the value of this great rarity will certainly multiply many times.

While the 1943 "Copper Cent" has been publicized and sold for many thousands of dollars, this RARER 1944 TRANSITIONAL has yet to reach its full potential value! The last valuation we saw was \$3,000; surely this highly desirable rarity should now exceed that. **COLOR PLATE**

SHIELD NICKELS

- 173. 1866 **RAYS MS-65**, Brilliant golden Uncirculated, Sharp Struck Wire Edge **GEM! RARE THUS.** Trends 1,150.00.

Authorized after intense lobbying by the nickel interests who succeeded with the 3¢ nickel a year earlier (weight 30 grains) but with a disproportionate 77.16 grains. Mint director Polluck approved the "nickel" with the understanding that a silver coin would replace it when specie payments were resumed (instead, silver half dimes were discontinued in 1873).

- 174. Lot 3: 1866 Rays Sharp VF-30; 1883 5¢ & 1865 3¢N EF-45 cleaned. 90.

EARLY HALF DIMES

235. 1794 V-1, R-7, About Uncirculated with only barest traces of friction, considerable luster with lovely pretty pink toning, golden bluish patina. Evidence of slight repair above 4 in date and corresponding rx. left of OF. A lovely specimen with hair much sharper than usually seen on uncirculated specimens of this date; rub on eagle's breast which is sharper than usual, even the eye of the eagle is visible! The "commonest" variety of this date uncirculated is valued in the Guidebook at 6,500; what then should this many times rarer variety (with above mentioned repair) be worth?

The first year of silver coinage at the Mint. Following tradition in older countries, the denomination was not placed on the 5¢, 10¢ and 25¢ coins at the beginning as they had reeded edges (the ½¢, 1¢, 50¢ and \$1 had the denomination on the lettered edge). Coins circulated and were accepted based mainly on the intrinsic value of the metal. When copper rose in value in 1795, the weight of the cent was reduced. The rise in silver forced the cessation in striking of the dollar in 1803 (later reinstated at reduced weight) and the increase in gold stopped the minting of eagles in 1804 (reinstated in 1838 at reduced weight). The flowing hair type was struck only two years, 1794-1795. COLOR PLATE

236. 1801 Detail of Fine, but cleaned and a few lt. scratches and nicks. Still, acceptable grade for this Scarce dt. 225.

BARBER DIMES 1892-1916

An unusual number of outstanding specimens is included in this popular series. We note a continuing strong demand and some of the record prices reached in our ANA Sale last August now appear as "bargains." Noting some of the prices realized at the February Long Beach, Los Angeles and Colorado Springs conventions, we must conclude that we are now in a rapidly rising market—in some ways reminiscent of early 1973 when prices "Really Took Off." Serious collectors and investors should not postpone any longer acquiring what they need or want. We expect many new records to be set in this sale as the rise in demand and values should be much stronger by May. After spending 50 years in numismatics, one acquires a sensitivity about the market. Sometimes there is no substitute for experience (A. M. Kagin).

1921-D SPLIT-BANDS UNCIRCULATED SUPERB DIME!

3x's Enlargement

- 399. 1921-D MS-65++, Incredible Brilliant Uncirculated Split-Bands, IMMACULATE FIELDS SUPERB- Lovely light golden toning. CAMEO-SHARP STRIKE! We do not recall seeing an equal specimen in all our 50 years in numismatics! We note a specimen offered in 4/25/77 Coin World at \$2,250.00. Since we did not see that coin, we do not know how it compared to this "Fantastic" specimen. During the intervening year, however, we do know that there has been a substantial rise in values of Mercury dimes, particularly for those in top condition. **COLOR PLATE**

426. 1945-P Superb GEM BU MS-65+, 90% Fully Split-Bands. Extremely Rare This sharply struck, most completely flat bands. Any 45-P with over 50% full bands is a rarity. Should bring strong 3 figures.

TWENTY-CENT PIECES 1875-1878

427. 1875 AU-50, Sharp and prooflike luster, only 39,700 struck.
Liberty seated as on quarter but eagle similar to trade dollar, plain edge to distinguish it from quarter but it still was confused with it. The CC mint struck 133, 290 and S mint 1,155,000 but the confusion with the quarter lead to its early rejection. Only 15,900 were struck at "P" min in 1876 while the 10,000 1876-CC were not released for circulation and later melted at the Mint. The few specimens known were obtained directly from the Mint before being melted. The 1877 and 1878 were struck only in proof for collectors. In effect, the 20¢ piece circulated for only about a year—the shortest-lived denomination of all U.S. coins.
428. 1875-S MS-60+, Sharp Struck with Full Stars, Brilliantly Choice. A few very light scattered contact marks; without them, MS-65. Very striking coin. 850.

429. 1875-S Choice MS-60+, Brilliant golden Uncirculated with fewer light contact marks but stars on right not full, exceptionally nice example of popular type. 850+.
430. 1875-S VF-20, Good strike, attractively toned. 90.
431. 1876-P Unworn, but devoid of luster, from old cleaning. Full, sharp detail: head stars, wings. Quite sharp and superficially a matte-prooflike appearance. Only 15,900 struck!

432. 1877 Proof-65, Lovely bluish golden Wire Edge **PROOF, EXCEPTIONALLY CHOICE! THE RAREST PROOF 20c! ONLY 300 ESTIMATED COINAGE** (After melting at Mint in 1878). Note specimen recently (not as attractive) at \$2,500; value by time of sale? **UNDERVALUED WITH ITS RARITY.**

Only 510 were struck but Breen estimates that about 210 were melted June 29, 1878 when the denomination was abolished. Many, if not actually the majority of the 300 remaining in 1877 have since been cleaned, damaged or circulated. We have noted various estimates over the past 50 years that perhaps only 200 down to 150 total specimens now exist. COLOR PLATE

433. 1878 Choice Proof-60+, Clearly an above average example of this scarce issue. Full mirrored brilliance, a couple tiny contact marks from "65." Not cleaned or abused as are many of the still small number of survivors. About 500 of the 600 struck escaped the melting pot June 1878 when the denomination was abolished. Should easily reach 1,500.

CHOICE 1796 QUARTER

434. 1796 EF-40+ First year of denomination and 1-year-type coin. Strongly detailed, as evidenced by full hair by ear, lower curls, eagle's wing and tail feathers, even the eagle's eye visible. Apparently skillfully cleaned, now silvery-grey. On detail alone, comparable to many AUs we've seen. Among the most popular of U.S. coins. We wouldn't be surprised to see it reappear toned and as "Choice AU"! A strong evenly struck coin with Full Denticles both sides and free from any nicks or scratches which seem to prevail with most specimens seen. 8,500.

The original proposal was for a truly decimal coinage including a double dime (20¢) but by the time of actual coinage, custom and usage won with the popular circulating "2-bit" (2 reales) piece being replaced (to some degree) by its equivalent—the quarter. In fact, the Spanish-American (Mexico, Peru, etc.) "quarter" (¼ of 8 reales after which our dollar was patterned) was so prevalent that coinage did not start until two years later than the other silver: 5¢, 50¢ and \$1; and then with little more than a token coinage of only 6,146. After a hiatus of 8 years, a mere 6,738 were struck in 1804 and again interrupted from 1807 to 1815, at which time it finally began to be accepted and was struck with more regularity. COLOR PLATE

435. 1806 VF-35, Mostly Sharpness of EF-40 except in center, tiny edge nick. An attractive coin, complimented by blue-green toning. The central portions are weakly struck—as frequently encountered. Traces of mint luster at the borders. 600. **PLATE**
436. 1807 Very good obverse (rubbed around top edge), Fine to Very Fine rev. 150.

CAPPED BUST QUARTERS—LARGE SIZE 1815-1828

461. 1872 MS-65, Prooflike Uncirculated, Very Rare in Mint State. Wire Edge, frosty devices, sharply struck. 550 **PLATE**

462. 1876/1876-CC MS-65 **SUPERB.** Frosty **GEM** of "Fine Reeding" var. (153 reeds instead of usual 119). Dozens of times rarer than usual 1876-CC and not found on any other issue. Valued by Scott at well over double the "common 1876-CC". One recently offered by Eastern dealer at \$1,600; we cannot visualize how a specimen superior to this could exist with its near **CAMEO-SHARP Strike** and virtually **Immaculate Surfaces!**
463. 1873-S Arrows, MS-60 Uncirculated, well-struck for this often weakly struck date, attractive sunset toning. Trends 750. **PLATE**
464. 1877-CC MS-65, Brilliant golden Uncirculated Sharp Struck **GEM! 650**
465. 1878-CC MS-65, Brilliant Prooflike Sharp Struck with lovely iridescent toning **GEM! MUST BE SEEN TO BE APPRECIATED!** We expect spirited bidding to four figures for this scarce beauty. **PLATE**

1878-S PROOFLIKE GEM QUARTER

- 465A. 1878-S Brilliant golden **PROOFLIKE GEM! RARE.** Catalogs \$1,500 but note one two years ago at 2,000.

466. 1879 **SUPERB PROOF-65+**, LOVELY RUSSET-BROWN TONING! STUNNING COIN; MUST BE SEEN TO BE APPRECIATED! How many of the only 250 (compared to 1,355 for 1880, etc.) struck a century ago can still exist in this remarkable condition? Easily worth well over \$1,000.00. **COLOR PLATE**

467. 1883 **MS-65**, Lovely iridescent toned Sharp Struck Uncirculated with excellent prooflike surfaces (subdued rather than full mirrorlike as on true proofs) **GEM!** Must be seen to be appreciated! Scott states "R-6 and very much underrated". Note comparable specimen well over year ago at \$1,275.00.
468. 1887 Choice Proof-60+, Nicely toned, **SCARCE** low-mintage. 500 **PLATE**
469. 1888 Proof-60, Nice toning, lt. hairlines. 350

470. 1888 **MS-65**, Brilliant Uncirculated, slight porosity of prooflike surface, (not the full mirrorlike surface of true proof) **GEM!** Lovely R-6 (only 13 to 30 exist) of popular series. Ordinary MS-60 trends \$625; **GEMS** such as this have been noted at well over double, \$1,250.00.

BARBER QUARTERS 1892-1916

Now quite popular with many new records being set, particularly in top conditions. The true rarity of some in Mint State is now beginning to be realized; some rare in in Mint State were heretofore believed "common" due to large coinages. It has now become evident that some with larger coinages are indeed among the rarest in Mint State.

471. 1892 Choice MS-60+, Strong strike & full unbroken luster. Almost pristine surfaces. A wonderful type piece. 275

LIBERTY STANDING QUARTERS

535. 1916 MS-60-65, Light golden Uncirculated, usual soft strike observe, Sharp Struck rx., IMMACULATE SURFACE GEM! RARE. 2,000. COLOR PLATE

536. 1917 Type I, MS-65, Brilliant Sharp Struck FULL HEAD, SUPERB! As close to MS-70 PERFECTION as we have seen! Note one over year ago "Real Gem" at \$500; the present strong demand for this "one year type" (1916 much higher) in this "Ultimate Condition" leads us to expect somewhat more.
537. 1917-I EF-40; 1917 Type II AU-55+, BU, FULL HEAD except rub on knee.
538. 1917-D Type I, Brilliant Sharp Struck FULL HEAD GEM except for streak across obverse (probably done at Mint when struck). Gem is \$450; this worth?

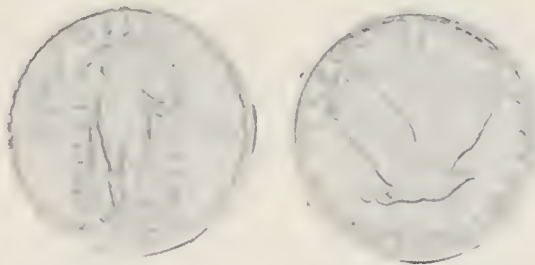

539. 1917-S Type I, MS-65+, Brilliant Sharp Struck FULL HED, IMMACULATE SURFACES, SUPERB! If any specimen deserves the "MS-70 PERFECTION" accolade, this could very well be it! Old record (Reed Hawn) of \$540. Much rarer in Mint State than generally realized. This "Fantastic" specimen could now fetch closer to 1,000.
540. 1917 Type II, MS-65, Brilliant Uncirculated FULL HEAD GEM! 400.
541. 1917-S Type II, MS-60+, Choice Brilliant golden Uncirculated. Trends 145.
542. 1918 MS-65+, Brilliant Sharp Struck 90% FULL HEAD, IMMACULATE SURFACES! Only 5% struck in Full Head. Old Reed Hawn record of 400.
543. 1918-D AU-50+, About Uncirculated with luster. 75.

OUTSTANDING 1918-S 8/7

544. 1918-S 8/7 Choice Borderline Uncirculated, MS-55+, a beautifully select example of this major 20th Century rarity, by far the rarest of the series. Many viewers will, no doubt, question our conservative appraisal; after all, full unbroken brilliant luster is evident and the surfaces are free from even the most miniscule marks or irregularities. Moreover, the strike is exceptional. Even superior to the Choice Uncirculated specimen which appeared in our 1977 ANA Sale. Note: near full head and shield, full eagle's feathers to the uppermost tips. The tell-tale presence of friction are on Liberty's breast and right knee. Certainly worth the full Redbook listing for Uncirculated (\$5,500). On a comparative basis with many other rarities, potentially worth 5 figures. In fact, this cataloger knows of an AU-50 example which was proudly sold to an investor as "Choice BU" for about \$9,000. Here, properly graded, the opportunity is at hand to acquire an outstanding American artifact and treasured investment. **COLOR PLATE**

6:30 PM

FLOWING HAIR HALF DOLLARS 1794-1795

587. 1794 Variety 0-101 VG-10, Choice specimen of this scarce and extremely popular classic. Nearly Fine (acquired as VF), excellent surfaces. Underrated. 600. **PLATE**

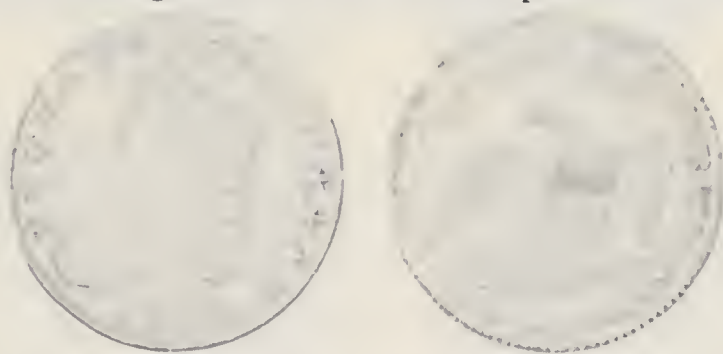

588. 1795 0-125, R-6, Strong enough detail to warrant EF (visible eagle's neck and breast feathers, bold obverse hair). Surfaces are attractive, though an old gentle scrubbing and faint reverse adjustment marks are discernable. **Probably in "Condition Census"**; certainly extraordinary as a type. Our 1977 ANA EF #1388 realized \$1,400.
589. 1795 0-114, R-7, F-12/VG-8, as commonly seen, this piece was unevenly struck, so that obverse grades a nice Fine, the reverse closer to VG (bought as VF obv., VG rev.). The usual presence of nicks, scratches, etc. are not to be found.
590. 1795 0-105, R-4, F-12 (bought as VF), Choice no problems coin. 450.

DRAPED BUST, HERALDIC EAGLE HALVES 1801-1807

591. 1803 Large 3, VF-30, Strong Very Fine, tiny dig obverse between ER, rx. closer to EF (bought as XF-45, planchet defect). Trends VF 250.
592. 1805 0-107, Nice F-15, usual strike with weak motto (bought as VF-35, \$195). Cat. 100.
593. 1806 0-107, R-6, Knobbed 6, 5 berries rx. **Superior to Overton plate coin!** Weak in same areas as plate, this piece nearly VF as to wear. Overall, conservative F-15 (bought as VF-35 at \$325). **VERY RARE**
594. 1806 F-12, Nicely toned, pointed 6, stem through claw. 85.

595. 1807 0-110 Bust Rt., Deceptive coin to grade. Original luster mingles with old dipping, some detail of EF sharpness, others high VF. Understandably graded before as AU. 300.
596. 1807 0-112 Bust Rt., EF/VF, Several scratches, traces of mint luster. 150.
597. 1807 Bust Left VF-30, Nice Very Fine, Lg. Stars, RARE "BEARDED CHIN" (die break chin to breast). 150.
598. 1807 Small Stars, VF-30 Sharp Very Fine. SCARCE. 150.
599. 1808 0-105 (R4) AU-50 but lt. cleaning, good strike (bought as "BU"). 90.
600. 1809 EF-45 Sharp with usual weak left wing, toned (bought as AU-55), 0-101 var. Very RARE.
601. 1811 AU-55 0-103a, Large 8, About Unc., (flat top curl) lovely bluish golden luster. 275.
602. 1811 SM 8 EF-40; 1813 50¢ UNI VF-30 (SCARCE Variety). 190.
603. Lot 6: 1811 Sm 8, 13, 14/13, 18, 19, 21 VF to Fine.
604. 1812/11 0-102 Sm 8, EF-40/AU-50, Attractive bluish golden. SCARCE. 165.
605. 1814 0-104 var. Rarity 5 (RARE), AU-50, nicely toned.
606. 1814 0-109 (R-5), Choice borderline Unc., 55+ (bought as MS-65), simply beautiful rich toning. The rev. Unc., the obv. slightly rubbed. 250.
607. 1815/2 VF-30, Bought as "Unlisted Overton variety", upper parts of 2 stars imbedded (not raised as normal) over cap. Attractively toned, closed to EF (for which it was bought @ \$1,000). Lowest year mintage in the series & always popular. 600
PLATE
608. 1817 Date 1 8 1 7, 0-109 (R-4), AU-50 with gray-golden luster. 175.
609. 1817 Date 181.7 Strong Fine-15; 1818 EF-45 Sharp Ext. Fine. 135.

610. 1819 0-112 (R-4), MS-60 Bluish golden Uncirculated. RARE. Acquired as "FINEST KNOWN" @ \$750; should now exceed \$1,000.00. Superior to Getty Sale Coin lot 783, which they called finest of 19 spec. surveyed by that specialist—Breen.
611. 1810 EF-40; 1820/19 VF 20; 1826 Sharp VF-35. 165.
612. Lot 5: 1821, 27 Sq2, 28 C2, 30 Sm o, 31 EF-45. Nicely toned.
613. 1822/1 0-101 AU-50 Heavy second 2 (most obvious of 1822 overdates) much luster. Superior to most offered recent years. SCARCE. 300.
614. 1822 0-118 (R-3) Choice AU-55, Wonderfully brilliant coin, rev. Mint State, but obv. lt. friction (bought as MS-65). 200.

615. Lot 7: 1822, 24 VF; 22, 29, 30 F; 25, 27 VG.

616. 1823 Choice AU-55 Double profile. Fully brilliant, lt. gold toning. Lt. rubbing prevents Mint State. 200.

617. 1823 0-106a MS-60 Partly patched 3; as yet without crack from last 3 stars to curl, lustrous with beautiful gold, rose and green luster (bought as GEM). Superior to EF plus Getty sale coin! Possibly "FINEST KNOWN"! Easily worth over \$1,000.

Formerly called 1823/2 but Overton's research proved the 3 was patched together, rather than being punched over a 2.

618. 1823 Broken 3, VF-30 Sharp Very Fine. SCARCE. 125.

619. 1824/4 0-110 Double Profile, AU-55 Borderline Unc., Bluish golden luster, faint mark in field resembling die break. 150.

620. 1824 VF-35 & 1832 AU PL, nicely toned. 150.

621. 1825 0-102 Choice AU-55, Brilliant & lustrous, Sharp; lt. friction. 175.

622. 1826 Possible SPECIMEN STRIKE full prooflike mirrored fields, Sharp Strike—dazzling! At first glance it appears Proof; further checking shows that 0-102 was used for proofs (high 6x, this coin is a low 6). A true proof might bring over \$3,000, this cost \$2,100.00.

623. 1826 0-112 AU-55, Strong brilliance, only lt. friction. 150.

624. Lot 6: 1826 VF-20; 27(2), 29 EF-40; 33 EF+ cleaned & 34 VF-30. 250.

625. 1826 Good; 1833, 36 Bust, 1873 Arrows, Avg. Fine.

626. 1827 0-120 (R-4) Sq base 2, AU-50+ Sharp Strike, golden lt. friction (bought at "MS-65").

627. 1827 Sq base 2, AU-50+, Attractively toned, strong strike. 110.

638. 1834 SD, Choice borderline Unc-55+, lovely completely original piece with faint friction obv., pristine surfaces (bought as "Ch Unc., @ \$350). 200.
639. 1834 LD, AU-50 Some luster (ex. Coin Galleries 11/75 @ \$355). 110.
640. 1834 0-105, LD-SL AU-55, Full luster but lt. friction. 150.
641. 1836 Bust VF-30 & 1837 Reeded Edge VF-30, Choice Very Fine pr. 110. **PLATE**

1835 SPECIMEN-STRIKE HALF DOLLAR

642. 1835 LOVELY GLITTERING IRIDESCENT SHARP STRUCK PROOFLIKE (both sides) FULL EDGE DENTICLES (both sides) GEM! While it has many of the qualities generally associated with proofs, it does not have them all, therefore we are inclined to call it a "SPECIMEN-STRIKE" probably made for some presentation purpose. Naturally, acquired as a "PROOF" @ \$2,500.00; while we do not believe it is as yet worth this price, it still is worth a substantial four figure bid. **COLOR PLATE**

REEDED EDGE BUST HALF DOLLARS 1836-1839

643. 1836 "50 CENTS", VF-20 Light field scratch obv. & rx. obscured by toning. **SCARCE!** Trends \$800. **PLATE**
644. 1837 50 CENTS, EF-45, Sharp but minor abrasions & test-mark edge rx.

645. 1837 "INVERTED OR BACKWARDS G IN AMERICA", MS-60- Choice Sharp Uncirculated with lovely rich gold & blue (periphery) luster, Sharp Raised Edge, Very close (fine) reeding over normal wider reeding! Bowers sale (6/76) had one which fetched \$1,450; now nearly 2 years later this remarkable rarity surely worth over \$2,500.00. **COLOR PLATE**
646. 1837 "50 CENTS", VF-30 sm nick obv & 1839 "HALF DOL." VF-20. 140.

647. 1837 BROAD MILL 30 MM DIAMETER (2 other "common" var. come 30.5 & 30 mm) MS-60 Nicely toned. (faint bag marks). Listed in Scott as **MAJOR "TYPE"** at R8? (3 known)!!! Bought as "EXCESSIVELY RARE" @ \$3,500.00. **COLOR PLATE**

648. 1838 HALF DOL. Choice AU-55. Splendidly toned, just a trace of friction from Mint State. Sharp, pristine fields. 400.
649. 1838 AU or better detail, but dull from old cleaning. Still, a very pleasing & sharp type piece. 175.
650. 1838 Fine; 1874 Arrows, Very Fine. Nice types. 135.
651. 1838 EF-40 Extremely Fine, some light abrasions in field. 140.
652. 1839 RE AU-50+, Sharp & lustrous, Choice type coin, only lightly rubbed, free of cleaning & marks (bought as Ch BU). 325.
653. 1839-0 AU-55 But couple sm & lt. planchet patches left obv. (bought as Very RARE MS-60). RARE Unc.
654. 1839-0 EF-40 SCARCE & popular issue. Brightened from old, but tolerable cleaning. 350.

1839 NO DRAPERY SEATED LIBERTY HALF UNCIRCULATED

655. 1839 NO DRAPERY, MS-60+, CHOICE UNCIRCULATED WITH GOLD AND PINK LUSTER, SHARP STRUCK WITH RAISED EDGES! INCREDIBLY RARE THUS as over 99% we have seen come weakly struck in the center (see photo in Guidebook). The great rarity of this "one year type" in top condition has long been recognized (Stack's 3/75 sale specimen fetched \$7,500). The strong demand for this remarkable coin leads us to expect spirited bidding to now send it well over \$10,000.

1839 was an interesting numismatic year for half dollars. The last year for bust type with 3 major varieties, 1839 BUST TYPE 1840 REV. WITH SMALL LETTERS (leading dealer states only 1 known—THE RAREST HALF DOLLAR LISTED IN THE GUIDEBOOK!) 1839 with normal Larger Letters, and 1839-0 Mint Mark on Obv. The SECOND TYPE 1839 had the short-lived new Seated Liberty design with "Naked Arm". The THIRD TYPE 1839 was hurriedly altered from the above by adding DRAPERY TO THE ELBOW. COLOR PLATE

656. 1839 DRAPERY MS-60+ Choice Uncirculated with Raised Edges, lovely gold and blue luster, Every Star FULL, a joy to behold and catalog! An "MS-60" coin brought \$925 at an 8/75 sale; surely this desirable "first year type" now worth closer to \$1,500.00.
657. 1830 DRAPERY, AU-50 Gray brown toning. 150.
658. 1840 MS-60+ Sharper Uncirculated than most with gold & blue (periphery), normal small letters rx. SCARCER in Mint State than generally realized. 750.

659. 1840 MS-60+ MEDIUM LETTERS & LARGE EAGLE Rx OF 1838, Choice with gray, blue gold luster, Wire Edge, faint contact mark in field prevents higher rating. PARTIAL DRAPERY (not noted in various references—rare new variety?), struck from shattered rx. die (discarded in 1838 and pressed into emergency use in 1840?) This could account for its limited use in 1840 and its GREAT RARITY IN MINT STATE! MANY TIMES RARER THAN 1840 SMALL LETTERS, PARTICULARLY IN MINT STATE! Scott states "Always flatly struck, Very Rare in Unc." Certainly a candidate for high in "CONDITION-CENSUS" (the 6 "Finest Known"). If this remarkable specimen were in our regular stock, we would not hesitate to price it \$3,500.00.

Doing research and uncovering "sleepers" (unknown rarities) is part of the fascination of numismatics. Halves offer a good "hunting ground" as we know a number are still waiting to be "discovered." Research pays dividends! COLOR PLATE

669. 1843 AU-55 Borderline Unc., Sharp Struck, Luster. 250.

670. 1843-0 DOUBLED DATE, MS-60 Golden Unc., Nice Natural coin. SCARCE. 750.

671. 1844 MS-65 Brilliant CAMEO-SHARP Strike & "SQUARE" Edge generally associated with proofs, GEM in spite of bag mark rt. field, Very Rare thus. Cost \$1,000.00.

672. 1844-0 MS-65 Brilliant golden CAMEO-SHARP Strike & "SQUARE EDGES", GEM! RARE THUS. This "incredible" specimen surely worth over \$1,500. COLOR PLATE

673. See following page.

674. 1845 MS-60++, Brilliant golden "CAMEO-SHARP" Strike & "SQUARE EDGES," very close to the "GEM" for which acquired! Scott states, "For some reason, very scarce in all conditions, and habitually underrated." RARE IN MINT STATE! Easily worth 1,000.

675. 1845-0 MS-65 PARTIAL DRAPERY, Brilliant "CAMEO-SHARP" Strike & "SQUARE EDGES," GEM! A joy to behold and catalog. RARE THUS. 1,500.

MINT STATE BLUNDERED DOUBLE DATE 1844-0 HALF DOLLAR

673. 1844-0 MS-65 BLUNDERED "DOUBLE DATE" (first date out $\frac{1}{3}$ into base of Liberty) second date punched over first but in correct position with no attempt to remove the first date. Among the **MOST SPECTACULAR OF "MINT ERROR DIES"**! "CAMEO-SHARP" Strike & "SQUARE EDGES" generally associated with PROOFS or SPECIMEN-STRIKES. The top hair strands and breasts of Liberty are not knife-sharp but the prooflike gold-bluish luster and general characteristics of this spectacular piece leads us to believe that "Special Care" was given to its striking. Scott states "R6" (only 31 to 75 total known-most in about good to fine) & "Excessively Rare in Unc." We have confirmed this by checking sales the past 6 years and cannot find a single Mint State specimen! The great rarity in Mint State has prevented any records being set so that its value is difficult to ascertain. Judging from our 50 years in numismatics we believe it is as rare as the 1839 No Drapery in Mint State. Since the demand for the 1839 as a "one year type" is greater, we feel a realistic value would be less about \$5,000.

We dislike using the cliché "Chance of a lifetime" but it could very well apply to this remarkable specimen. As B. Max Mehl was prone to say, I don't know which is rarer-the coin or the chance to buy it". Since an auction is a "market place reflecting supply and demand", it will be interesting to see what it actually brings compared to the estimated value-less or more.

1845-0 DOUBLED DATE "PRESENTATION PIECE" HALF

676. 1845-0 PARTIAL DRAPERY, REPUNCHED DATE (Clear left side final date) small thin round "o" (smaller than previous years), lovely iridescent luster, SHARP STRUCK "SQUARE" EDGES, PROOF SURFACES and some other characteristics generally associated with PROOFS! Breen states, "Finer than the Reed Hawn piece and probably has an edge on Cox: 1904; comparable to Garrett: 205, which went in four figures; most probably ex Grant Pierce: 858, earlier believed ex Rovensky-Hoffecker: 430 (Mehl 11/54) but there is no documentation." In plastic stamped "1845-0 PRESENTATION PIECE"! A "Fantastic" specimen acquired at \$1,500; surely this EXTREMELY RARE piece listed in Scott as "DOUBLED DATE, Recut to the r. R-7 (only 7 to 9 known)" now worth over 2,500. **COLOR PLATE**

677. Lot 4: Nice EF "O" Mints: 1845, 1847, 1848, 1849. 300.

678. 1846 OVER HORIZONTAL 6, MS-60, Uncirculated golden, Sharp Struck with Wire Edge, ALL STARS FULL! RARE IN MINT STATE. Old record (Reed Hawn 1973) of \$1,800; now nearly 5 years later this RARITY surely worth closer to 3,000.

One of the most spectacular and popular "Mint Errors."

685. 1848-0 MS-65, Brilliant golden bluish Sharp Struck GEM! In checking auction records the past 6 years we could find only a single specimen 3/76 which fetched \$1,100; surely 2 years later in a stronger market this rarity worth at least 1,500.
686. 1849 MS-60, Brilliant golden Uncirculated. Scarce. Trends 550.

687. 1849/1849 MS-65 DOUBLE DATE first date a little lower (Scott lists 2 varieties-2nd punched to right and 2nd punched to left). Brilliant golden Sharp Struck GEM! Scott lists other two double-date varieties as "High R-7" (only 4 to 6 known) without values and states "Unknown in Unc." Surely this rarity worth over 1,500.
688. 1849-0 MS-60 NO DRAPERY, Lovely blue iridescent toning. Normal Trends \$550; surely this no drapery worth somewhat more.

689. 1850 MS-65+ 1850/0, Brilliant "CAMEO-SHARP" Strike and "SQUARE DIES", Prooflike, SUPERB! The few faint bag marks in field keep it from being closer to "MS-70 PERFECTION." A spectacular beauty. Low coinage. Easily worth 1,500.

690. 1850-0 AU-55, Brilliant multi-colored toning (retoned). 200.

691. 1851 MS-60++ Very Choice, "CAMEO-SHARP" Strike golden Uncirculated. Interesting variety with die break connecting date. Scott states, "Very Rare in unc. Many of this year and next were melted at Mint after July 1853 as worth more than face value." Low coinage. Record of \$1,350; surely this rarity now worth over 1,500.

692. 1851-0 MS-65++, Glittering golden "CAMEO-SHARP" Strike, Prooflike, SUPERB! A lovely specimen. Few escaped the melting pot in 1853. Record \$1,350 3/76; surely this remarkable specimen in a stronger market should now fetch closer to 2,000. **COLOR PLATE**

693. 1852 MS-65, Brilliant golden "CAMEO-SHARP" Strike, SUPERB! Interesting variety with minute die marks right of date. An impressive coin with smooth prooflike surfaces. **LOWEST COINAGE (By far) OF ALL DATES IN 1850's!** Due to silver exceeding face value, very few were placed in circulation and the great majority were melted at Mint in June 1853 for silver value. Record \$1,700 at 3/75 auction; this "Fantastic" specimen now 3 years later in present strong market surely worth over 3,000. **COLOR PLATE**

694. 1852-0 AU-50, Brilliant golden Prooflike, scrape and nick left edge rx. (bought as Ch AU/Unc at \$650). **SCARCE**. Underrated.

695. 1852-0 Obverse just about Fine; reverse about Very Fine. Most melted. 85.

SILVER DOLLARS, FLOWING HAIR TYPE I 1794-1795

804. 1795 FLOWING HAIR, B-5, 3 leaves under each wing, VF-20, Excellent example of one of the most popular type coins. Clean, wholesome surfaces, strong hair and wing detail; only 1 small rim bruise rx. edge requires mention. Cat. 850.

Our early Bust silver dollars were poorly received by the populace; they preferred the Spanish coinage. Our silver coins were often exported as so much bullion, melted and resold to the Treasury for new coinage. A vicious cycle, indeed. The first decade of the U.S. Mint (1793-1803) was marked by constant fears of closing, unmotivated personnel and stringent economy. Is it any wonder coins of this era are rare, truly classic artifacts?

\$1 1795 TYPE II, DRAPED BUST AND SMALL EAGLE

805. Formerly lot 375 "Newport Collection" (Bowers and Ruddy auction January 1975) described: "1795 Small Eagle rev. B-14. Draped Bust obv. **BRILLIANT UNC. PROOFLIKE. SHARPLY STRUCK IN ALL DETAILS.** All of the hair strands are very bold. On the reverse the eagle is one of the nicest strikes we've seen, with the normal flatness of strike being at a minimum. Some adjustment marks (caused at the Mint during planchet preparation) extend into the coin from the upper left obverse and also through the stars on the right. On the reverse there are some negligible adjustment marks near the bottom. Silver dollars of the 1795-1798 small eagle design are exceedingly rare in higher grades. The only finer 1795 small eagle dollar we've seen in the past decade is the specimen in the Chamberlain Collection. The present coin must be seen to be appreciated. It is breathtaking! (\$20,000-\$30,000)." It is indeed a lovely specimen with glittering golden bluish patina. **FAR SUPERIOR TO THE SPECIMEN PICTURED IN THE GUIDEBOOK! COLOR PLATE**

806. 1795 Type II, Bust and eagle about Fine but balance of coin Very Fine, nice whole-some specimen. 650.

807. 1796 Small Eagle, SD and SL EF-40. The obverse is strong EF, the reverse less so, due to the usually seen poor striking. Dipped to resemble AU (for which it was sold). **SCARCE.** Cat. 1,200.

THE "RAREST BUST DOLLAR 1794-1803"

808. 1797 B-2, 9X7 STARS, SMALL LETTERS, Extremely Fine with attractive even toning, **REMARKABLY SHARP STRIKE**, Stars and Denticles Full, the minute handling marks restrain our use of superlatives. Scott states, "Rev. always flatly struck. High R-6 (only about 15 or so known). Unknown in unc." Undoubtedly "CONDITION-CENSUS" as most known specimens are fair to about fine. **THE RAREST DOLLAR 1794-1803 LISTED IN THE GUIDEBOOK!** Not listed in better than Very Fine (due to great rarity in higher condition). A GREAT RARITY! Easily worth over 3,500. **COLOR PLATE**

HERALDIC EAGLE DOLLARS 1798-1804

809. 1798 LARGE EAGLE, 10 arrows, **Borderline Uncirculated** with barest trace friction on high points, lovely light golden patina with unusually smooth surface, remarkably free from the minute abrasions that seem to plague these large coins. Well Centered and Sharp Struck! Cat. \$6,000 Unc; this worth proportionately. **COLOR PLATE**

810. 1798 Lg Eagle, Very Good except top 3 stars left rubbed off and 3 faint pinscratches obv., Strong Very Good rx. (Motto visible). Trends VG300.
811. 1799/8 Struck from dished dies resulting in bust and eagle being Very Good (few stars above eagle do not show) and outer portions Fine to Very Fine. Rare, much more so than Guidebook indicates. Easily worth over 400.

812. 1799 Better than EF, Cleaned some time ago, now dull, to appear AU. Full sharp hair and feather detail, no problems except faint pinscratch right field (resembles die break). Cat. 800.
813. 1799 B-5, 8x5 STARS, Bust and eagle Choice Very Good with balance of coin Fine to Very Fine. Wholesome coin free of abrasions. Rare, more so than Guidebook indicates. 450.
814. 1800 Fine-12, A few obverse scratches. 300.

815. 1800 Only 12 Arrows, Strong detail, suggestive of AU; full hair atop head, eagle's breast and tail feathers, traces of luster. Brightened from an old scrubbing (came to us as MS-60), entirely unnecessary, for this is a choice coin on its own merits. 1,000+.
816. 1802/1 B-2 Wide date, 13 arrows, VF-20 Strong detail, "E" and "J" lightly scratched in obverse fields. 450.

LIBERTY SEATED NO MOTTO DOLLARS 1840-1865

817. 1840 Sharp VG obverse (most LIBERTY), Very Fine rx. 115.
818. 1842 EF-40, Nicely toned, minimum marks. 175.
819. 1843 EF-45, Very sharp features, traces of luster, nicely toned. 200.
820. 1845 AU-50+, Full head, stars, Prooflike and thick edges. Very scarce date this nice; mintage only 24,500. 450.
821. 1846 EF-40, Deeply toned, scratch across shield. 150.
822. 1847 Very Fine, Short scratch at 7th star. Trends 125.
823. 1853 Detail of AU (much above average strike), scrubbed some time ago, 2 deep rx. scratches and a couple of rim nicks.

Why the bullion composition of silver dollars was not changed after 1852 (as done for subsidiary silver) remains largely unanswered. The dollar continued to weigh 26.73 grams, 90% silver. To conform to the new law, it could have been 24.88 grams, 90% silver (twice the 1853 50¢ piece). Perhaps, the pride (and competition) of a large crown-size coin motivated the decision makers to leave the coin as is. To be sure, the result was that many Seated Dollars saw the melting pot and are far scarcer than even their limited mintages indicate.

824. 1859 Lovely iridescent borderline Unc., faint friction. Scarce. 400.
825. 1859-0 AU-50, Polished to resemble Unc. 250.

826. 1859-0 Very Fine (cleaned), small edge nicks; TRADE \$1 1878-S Good.
827. 1859-0 Good; 1872 Good. No Motto and With Motto. Trend 140.
828. 1860-0 Choice MS-60+, Far superior to the usually-seen bagmarked Uncs. Soft pink toning envelopes excellent surfaces, revealing only a scattering of light marks.

LIBERTY SEATED MOTTO DOLLARS 1866-1873

830. 1867 Proof-60+, Beautifully toned, choice surfaces. Small reverse rim nick at 1:00, way above average of the survivors of the 625 mintage. 900.
831. 1869 EF-40/AU-50, Traces luster, particularly rx. Trends EF\$160 (AU about \$300); this worth 200.
832. 1871 F-15/EF-40, Wholesome coin, no abrasions. 110.
833. Lot 3: 1872 Choice toned EF-45; 1821 Morgan MS-60; 1835-P AU-55. 200.

LIBERTY HEAD OR MORGAN DOLLARS 1878-1921

The most popular series being collected today. Many new records seem to be set at auctions which we conduct or have attended. Today's "incredible price" has a habit of becoming tomorrow's "bargain."

The following selection of Morgan Dollars are truly remarkable for their consistent high quality; many will again bring record prices when they are resold!

PEACE TYPE SILVER DOLLARS

Quite popular with new records being set at almost every auction.

915. 1921 SUPERB MS-65+, Brilliant light golden, Sharp Struck. The center hair strands are not quite full but are about as sharp as we can recall seeing; the reverse strike is indeed sharp. The surface fields are IMMACULATE with only a tiny faint bag mark in obverse field from PERFECTION! Lovely satiny surfaces. An incredible specimen of one of the most popular U.S. coins. We note a "Super Gem" sold early 1/78 at 1,000.

Intended to "Commemorate Peace" (after World War I) the Peace Dollar was actually issued without Congressional authority (under terms of the Pittman Act which referred to the bullion but not the design). Like the \$20 1907 St. Gaudens, it was designed outside the Mint and not by a die sinker familiar with coinage. Anthony De Francisci was a medalist and in order to give it the greater beauty of depth, he designed it in medallion high relief. Again, as with the \$20 1907, it was impractical as the center was higher than the edge (it wouldn't "stack") and had to be redesigned in 1922 with (as normal) the edge being higher than the center.

- 916. Lot 4: 1922, 23, 24, 25 MS-65, Brilliant golden Sharp Struck **GEMS!**
- 917. **1922-D MS-65**, Brilliant Sharp Struck, **RAISED EDGE BOTH SIDES, GEM!**

- 930. 1928-S Choice MS-60+, Brilliant Uncirculated, superior to most.
- 931. **1934 MS-65**, Brilliant golden, satiny surfaces, **GEM!**
- 932. **1934-D MS-65**, Brilliant golden Sharp Struck, **GEM!** Scarce.

- 933. **1934-S MS-65+, EXQUISITE** Brilliant golden Uncirculated **SHARP STRUCK SUPERB GEM!** A superb specimen worthy of the most discriminating collector with aesthetic appreciation. The rarest date of the set in the highest state of striking and preservation. We doubt if a comparable specimen could be produced at \$3,000 or even 4,000.

*The rarity of this date is attributed to its being placed into circulation at the time of issue during the bottom of the Depression. There were very few collectors then and still fewer interested in "laying aside" the "expensive" silver dollar. The earlier dollars (1928 back) were stored in the Treasury and silver certificates circulated. The change in the coinage law of 1934 allowed silver bullion to be stored, thereby saving the cost of converting bullion into silver dollars. **COLOR PLATE***

TRADE DOLLARS 1873-1885

938. 1874 VERY CHOICE PROOF-60++, Lovely iridescent Sharp Struck, Wire Edge! Not many of the original 700 still remain—many were “spent” or melted. They weren’t popular. Cat. 1,400.

Issued for circulation in the Orient, the Trade Dollar weighed 420 grams compared to 412 ½ for the regular dollar. It was legal tender up to \$5 in the U.S. The decline in the price of silver led Congress to repeal the legal tender provision in 1876. The only U.S. coin not worth its face value to the government, although in 1887 it finally authorized the Treasury to redeem all unmutilated specimens.

939. 1874 MS-65, Lovely pink, blue, golden, Sharp Struck (FULL HEAD), Proof-like, Wire Edge GEM! A cursory comparison of this remarkable specimen with that of the above Proof will readily establish its credentials as “Mint State” rather than proof. VERY RARE THUS! We cannot recall seeing a superior specimen. Surely worth over 2,500.

940. 1874-CC MS-65, Golden toned Sharp Struck, Wire Edge GEM! Rare thus. 1,000.
941. 1875-S MS-55+, Choice borderline Unc., Lovely lustrous piece, barest rub.
942. 1876-S MS-60, Nice fields, attractively toned.

943. 1877-P MS-60+, Splendidly toned and smooth, undisturbed fields.

996. 1854 TYPE II EF-45. Very Sharp, a few faint abrasions.
997. 1855 TYPE II, VF-30 Choice, Sharp, Very Fine.

998. 1855-C EF-45, Extremely Fine, Sharp Struck with traces of luster, Wire Edge! Akers (Gold Dollars of U.S.) states,

"With an average grade of VF-27, the 1855-C has the distinction of having the lowest average grade of any gold \$1; I have never seen a fully mint state piece and even struck AU examples of this date are Very Rare. Invariably the planchets and the quality of striking are extremely poor, and the date and word DOLLAR are almost always weak. In fact, the 8 is almost missing on some. Many also show distinct clash marks. Because of the poor planchets and equally poor quality of striking, grading is difficult."

Close examination reveals this has minimum clash marks and minimum traces of planchet porosity. **FULL DATE** and **DOLLAR**! Superior to some "About Unc." we have seen offered in past years. Catalogs \$1,500 in only EF-40, this remarkable specimen probably worth closer to 2,500. **COLOR PLATE**

999. 1855-0 TYPE II, AU-50 Sharp Struck with 8 completely visible (although weak), Wire Edge and much luster. Extremely Rare Unc. and quite elusive in higher grades, particularly with complete date visible. **THE ONLY TYPE II "0" MINT DOLLAR.** 1,750.

1000. 1856-S TYPE II MS-55+ Sharp Struck "SQUARE EDGE", remarkable strike with only top of 8 not full, nice luster. RARE SO CHOICE. THE ONLY "S" MINT TYPE II DOLLAR. Worth close to the cat. for Unc. of 3,400.
1001. 1856 TYPE III Slant 5, Sharpness VF but slightly bent & edge nick.
1002. 1856 Upright 5 AU-50 only 33,660 struck compared to 1,729,276 of slant 5. UNDERVALUED. 300.
1003. 1857 Choice Border, Unc. MS-55+. Nicely toned, sm. rev. mark.

1004. 1857-D AU-50 Nice surfaces with luster. Akers states (U.S. Gold Dollars) "In my opinion, this date is one of the most underrated Type III gold dollars. In this 192 auction catalogs surveyed, the 1857-D was offered ten times less than the highly regarded 1860-D. Also, the total of only four Uncs. offered is just slightly more than one third of the total of eleven Uncs. offered of the 1861-D. Every specimen that I have seen is very poorly struck, particularly at the upper reverse and on both the hair and headdress of Liberty." While conforming to the "poor striking", this is less so than on most specimens seen in the past 50 years. 1,500.
1005. 1857-S EF-45 Choice Extremely Fine, Sharp Struck, luster. RARE THIS CHOICE. 500.

1006. 1858-D AU-50 About Uncirculated with luster, typical soft strike ("Always weakly struck, particularly on the hair and headdress of Liberty, and at the 85 of date. On many specimens, in fact, the 8 & 5 are missing entirely-almost impossible to obtain 1858-D in full mint state"-Akers in U.S. Gold Dollars). The 85 on this is superior to most with 85 visible although weak. Cat. EF \$1,300 and Unc. \$3,000; this worth close to 2,000.

1007. 1858-S MS-55+ Borderline Uncirculated, Sharp Struck with luster, lt. rubbing (bought as Ch. BU). Akers states "Strictly uncirculated examples of the 1858-S are all but nonexistent. Extremely underrated compared to other more glamorous dates in this popular series." RARE THIS CHOICE! 900.

1019. 1875 Brilliant Uncirculated Prooflike, MS-60 The rarest, by far, of all "P" Mint dollars. Only a mere 400 struck for circulation. The majority of the few survivors were used for jewelry (the gold dollar stick-pin was popular in the 19th & 20th centuries). This lovely piece is Ex. the McNally Collection, NASCA 12/76 #550. In that catalog the notation was made that, "the coin has appeared in Unc. condition only 5 times since 1922." The current strong market for choice gold should witness eager competition for this notable offering. In fact, we should not be surprised to see the Redbook valuation of a modest \$7,500 vaulted. **COLOR PLATE**

1025. 1802/1 BUST RIGHT 8x5 STARS, MS-55/60 Only slight friction obverse but Full Mint State reverse, MORE SHARPLY STRUCK THAN MOST with only minute weakness center curl and opposite (eagle's neck). VERY RARE SO CHOICE! Akers lists only 4 Unc.'s and 4 AU's offered in the 192 auction catalogs surveyed (some no doubt reappearance of same coin). UNRECOGNIZED FOR THE TRUE RARITY IT ACTUALLY IS IN TOP CONDITION! The catalog value of \$7,200 Unc. seems quite conservative for such a rarity. COLOR PLATE

"CONDITION-CENSUS" 1829 \$2.50 GOLD CAPPED BUST

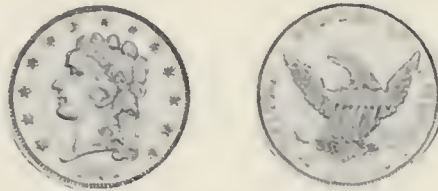

1026. 1829 BRILLIANT UNCIRCULATED, WIRE EDGE GEM! Popular first year type. VERY RARE, PARTICULARLY IN THIS REMARKABLE STATE OF PRESERVATION! The year-old catalog value of \$7,000 now appears to be quite conservative in the present rapidly rising market. In addition, the premium value for outstanding specimens such as this leads us to believe this highly coveted example will substantially exceed \$10,000, bringing closer to the \$14,000 envisioned by the owner. Judging from what other premium coins have brought, "double catalog value" could very well be conservative in the present strong market. How many years will elapse before another such specimen appears on the market?

The "Capped Head Left" type was first introduced in 1821 and coined to 1827 when it was redesigned on a Narrower Planchet, with Beaded Borders, Raised Rims, Smaller Date, Stars And Letters. Very few survived the melting pot as the rise in gold value forced the issuance of lesser gold content coinage in 1834. Scarcer than the other dates of this type (1829-34) with the exception of the "impossible" 1834. COLOR PLATE

“INCREDIBLE” 1872 MINT STATE \$3

1056. 1872 MS-65+ **BRILLIANT SHARP STRUCK PROOFLIKE WIRE EDGE GEM!** An **INCREDIBLE** specimen with virtually Flawless “**BLAZING**” **LUSTER!** Careful examination with a glass reveals microscopic lines on the small short bank of the wreath. How many of the 2,000 struck over a Century ago can still remain in this remarkable state of preservation? Scott (1975) states “Very Rare in unc.” & values unc. \$4,000. We agree; in fact, we have seen fewer Mint State specimens than we have proofs (30 struck) which Guidebook values \$8,000. **Those desiring “THE FINEST” should give careful consideration to this opportunity.** Who knows how many years will elapse before it may occur again.

*Less than 500,000 were struck for the ENTIRE SERIES 1854-1889 compared to the millions struck for some individual dates of \$1, \$2 ½, \$5, \$10, \$20. In addition, they did not circulate much and remained mostly in banks. When the gold act was passed in March, 1933, many were sent in and melted. They were never actually needed and were only issued for the “theoretical” reason of redeeming 3¢ pieces in lots of 100. Only 10 dates and mints had issues over 7,155 with most ranging from 2 to a few hundred up to the very low thousands. **COLOR PLATE***

\$4 STELLAS, SET FOUR 1879-1880

1061. SET FOUR: 1879 & 1880 COILED HAIR, 1879 & 1880 FLOWING HAIR. Three struck in aluminum and the 1879 Coiled Hair struck in copper and gold plated. Judd lists them as J-1637 (R7), J-1639 (R7), J-1659 (R8—only 3 known) and J-1662 (only 2 known).

THESE ARE SUPERB GEM PROOFS!!!

The last two sets we could find offered, one was in the 7/2/1975 Coin World (page 81) by a leading dealer worded thus:

“A COMPLETE SET OF COPPER GILDED PATTERN \$4 STELLAS!!

All beautifully gilded at the U. S. Mint . . . without a question one of the most beautiful sets we have ever seen. There could be none finer, all rarity 7 coins, 4-12 pieces struck. J-1636, J-1639, J-1658, J-1661. One of the best numismatic buys today . . .

\$75,000.00”

The other set struck in gold sold in the August, 1976 A.N.A. sale at \$225,000.00.

The rarity of the gold is thus: 10 each struck for the 1879 and 1880 Coiled Hair, 415 for the 1879 Flowing Hair and 15 for the 1880. We have been able to trace 5 sets of gold and 5 sets in copper or gilded copper but—

THIS IS THE ONLY ALUMINUM SET WE KNOW OF!

Value for this MUCH RARER SET IN THE PRESENT STRONG MARKET? No, we do not believe it will bring what a solid gold set might, but it is certainly Much Rarer than the copper gilded set at \$75,000 3 years ago.

The Stella (Latin name for star which appears on rx.) is one of the most beautiful of the U.S. coins. It has long been one of the “Dream Coins” for most U. S. collectors but a “SET OF STELLAS” is something very few collectors could allow themselves to even dream of owning. Here is the opportunity not only to “OWN A SET OF STELLAS” but to “OWN THE RAREST SET OF STELLAS”!

The \$4 gold coin was first suggested as an international coin by the Hon. John A. Kasson, then U.S. minister to Austria, who had formerly been Chairman of the Committee of Coinage, Weights and Measures. He thought it was desirable to have a gold coin approximately the value of those coins based on the metric system used in the European countries such as the Austrian 8 florins, the French 20 francs, the Italian 20 lire, the Spanish 20 pesetas, and the Dutch 8 florins. The committee on coinage favored the plan and suggested that a name “suitable for the four-dollar coin would be ‘One Stella’, in analogy to one eagle, both the star and the eagle being National emblems on our coins.”

Although it was never actually authorized as a coin, since it did state \$4, and contained about that much value of gold, some did circulate to a limited degree around Washington. A few were also carried as pocket pieces. It is said that a week after they were distributed to Congressmen, that some appeared in the possession of “Madams” around Washington and were used for jewelry. COLOR PHOTOS

\$5 1795 WITH HERALDIC EAGLE REVERSE

2x's Enlargement

THE "IMPOSSIBLE COIN"

1062. 1795 OBVERSE COMBINED WITH HERALDIC REVERSE—WHICH WE BELIEVE WAS ENGRAVED IN 1797! Obverse 15 stars (states); reverse 16 STARS (Tennessee became the 16th state during 1796). This type is believed to have been struck in early 1798 in very small number while under emergency conditions. A still serviceable 1795 obverse die was combined with the newly completed Heraldic reverse die waiting to be used with the yet incomplete 1798. Thus a hybrid coin was born WHICH COULD NOT HAVE BEEN STRUCK IN THE YEAR OF DATE — 1795!

This is an INCREDIBLE SPECIMEN! GLITTERING PROOFLIKE, SHARP STRUCK WITH "SQUARE EDGE" (We have occasionally seen similar

specimens dated in the 1820's and 1830's sold as "Proofs"). **THE EDGE DENTICLES (both sides) ARE DEEP AND SHARP! THE CENTERING IS PERFECT!** The striking is so sharp that the center points of the stars and ultimate high point on hair strand across cap reveal light friction (evidently from resting in an old-time coin-cabinet). There is miniscule evidence in the field of possible handling or being kept with other coins (if the mirrorlike surface weren't so Spectacular, it would be too inconsequential to be worth mentioning). **THE MIRRORLIKE REVERSE SURFACE IS SIMPLY "DAZZLING"!** Again, this coin is so sharply struck that the barest hint of rubbing is evident (with a glass) on tops of clouds and high points of eagles tail feathers.

A case for "SPECIAL CARE IN STRIKING" can be made based on a tiny lint-mark on Liberty's cheek, giving credence to the theory that after the mintmaster carefully selected a choice planchet and polished it, the die was carefully wiped clean, but as so frequently happened over the years, a tiny piece of lint adhered to the die. Further, the "crispness" of strike indicated extra-ordinary care was taken during the striking to see that all devices were fully struck up to their greatest possible potential! It is intriguing to contemplate the possibility of this specimen being struck for George Washington for "Presentation" at some special occasion. **WE DID NOT BELIEVE SUCH A SPECIMEN EXISTED UNTIL OUR INCREDULOUS EYES BEHELD IT!**

In checking auction records, we note the 1976 A.N.A. sale (lot 2921) had an Extremely Fine specimen described, "Probably not more than a dozen exist today in all conditions." It fetched \$16,500. How does one compare the value of the presently offered "PROOFLIKE" specimen with that of a circulated coin? Particularly in the present much stronger market. The circumstances are so unusual that we have no formula for computing its value.

An "IMPOSSIBLE" coin of GREAT RARITY in the ULTIMATE CONDITION!!!

As an analogy to the IMPOSSIBLE COIN we offer the following background using the intriguing 1797 dime:

The 1797 dime was originally issued with the 16 STARS REVERSE (prepared after Tennessee's admission as the 16th state during 1796). It was soon realized how impractical it would be to increase the number of stars for each newly admitted state, and therefore, a new die was prepared with the new standard of 13 stars. This new 13 stars reverse was subsequently combined with the 1797 obverse.

*Similarly, the originally prepared \$5 16 STARS HERALDIC EAGLE REVERSE was melted in late 1797 or early 1798 with the hurriedly resurrected 1795 obverse die to meet the demand for coins caused by the temporary closing of the Mint by the Yellow Fever epidemic. After the emergency the original 16 stars reverse was discarded in favor of a new 13 STARS REVERSE with the inauguration of regular strikings of half eagles in 1798. (We believe the 14 STARS REVERSE used in 1798 is an error die, possibly made under the pressure of time). **COLOR PLATE***

1795 HALF EAGLE (\$5 GOLD) SMALL EAGLE, CHOICE

1063. 1795 CAPPED BUST RIGHT, SMALL EAGLE, lovely Brilliant Sharp Struck with High Wire Edge (both sides), Glittering Surfaces. Only faint friction to obscure some of its beauty. Popular "Type" but more so as "First Year of Type" and First Year of Gold Coinage". SUPERIOR TO THAT ILLUSTRATED IN THE GUIDEBOOK! The value indicated there of \$10,000 for unc. seems somewhat conservative in today's strong market.

The half eagle was the first gold coin actually struck for the U.S., and authorized April 2, 1837. From 1795-1807 no indication of value appeared on the coins. People "knew" face value of coins by sight and weight. Coined at a ratio of 15-1 between gold and silver, the rising value of gold began leading to its disappearance after 1800. Still later, when the bullion value exceeded face value, others were melted. It is indeed remarkable that any have survived the melting pot. COLOR PHOTO

\$5 1804 CAPPED BUST RIGHT 8x5 STARS; HERALDIC EAGLE 13 STARS

1064. 1804 MS-60+ UNLISTED variety, small perfect date, blunt 1, Brilliant Uncirculated, Choice! Scarcest date 1800-1807. "The "normal" 1804 is worth \$3,500; surely this UNLISTED variety worth somewhat more.

The stars arrangement was first "standardized" at 8x5 when it was determined to have 13. In late 1806 design was modified to 7x6 stars, thereby giving the coin a better balanced appearance. COLOR PLATE

1065. 1806 MODIFIED TYPE, 7x6 STARS, Round top 6, about Fine (motto sharp) appears to have been "brushed" (to remove abrasions)? Scarce. Cat. Fine 700.

HALF EAGLES (\$5 GOLD) CLASSIC HEAD 1834-1838

1066. 1834 Plain 4, triple cut 4 (Breen II-8 variety) Brilliant borderline unc. (cleaned), lt. friction, some contact marks in field.

1067. 1834 NO MOTTO AU-50++ Choicer than most, Sharp Struck, luster. 550.
1068. 1834 VF-30 Quite Sharp but buffed and tiny edge nick.

1069. 1836 MS-65 Brilliant Uncirculated Sharp Struck, Wire Edge GEM! A lovely "MINT STATE" Specimen excellent for "Type". The demand for this type in true "Mint State" is exceedingly strong. We have recently noted two comparable specimens around \$5,000 range.

Most of these were coined from melted "old tenor" gold 1795-1834 issued at 15:1 gold to silver ratio and French gold received as indemnity growing out of the War of 1812. The new ratio of 16:1 recognized the increased value of gold. COLOR PLATE

1070. 1836 Choice Sharp Full Struck (rare thus) Uncirculated but has been lightly cleaned to enhance its appearance. Note comparable ones around \$2,000.
1071. 1838-C MINT MARK OBVERSE, first year Charlotte Mint, Very Fine-20 although some portions obverse suggesting higher grade. SCARCE. 850.

1072. 1838/183 "D" MINT MARK OBVERSE, first year DAHLONEGA MINT, Sharp Extremely Fine-45+ with traces of luster. Popular "type" (only Classic Head "D" mint) and date. Note similar specimen a year ago called "AU" at \$2,000; this now (stronger market) worth?

1079. 1848-C MS-55+ Borderline Uncirculated, Sharp Struck with much luster, Wire Edge. Only slight trace of friction restrains our use of superlatives. Scott states "Excessively rare in unc.". Breen's \$5 monograph lists only one unc. known. **VERY RARE SO CHOICE!** Easily worth upwards of \$2,500.

1080. 1849-C AU-50+ About Uncirculated, Sharp Struck, some luster. Scott states "Extremely Rare in unc." The \$750 value there for AU is now 3 years old. Probably now worth closer to \$1,000.

1081. 1850-C AU-55 About Uncirculated, Sharp Struck with luster. Scott states "Extremely Rare in unc. Mintmark is usually very weak." **UNUSUALLY SHARP STRIKE WITH THE STRONGEST MINTMARK WE CAN RECALL SEEING!** Easily worth over 1,500.
1082. 1851-0 EF-40 Extremely Fine, tiny nick edge rx. Trends 475.

1083. 1852-C MS-55+ Borderline Uncirculated, Sharp Struck with most of Luster; if not for the slight rubbing it would easily be "Choice Unc.". Scott states, "Excessively Rare in unc." We would not be surprised to see this rarity exceed \$1,500; possibly closer to 2,000.
1084. 1853-C EF-40 Extremely Fine. Interesting **HEAVY DIE BREAK** below FIVE. The reverse is surprisingly sharp (in view of die break) being EF-45. Scott states "Excessively Rare in unc." An intriguing coin which should exceed 750.00
1085. 1854-C EF-45 Sharp Extremely Fine verging on the "About Unc." for which acquired. Interesting massive die break from shield through wing to S. Scott states "Unknown in unc.". Probably worth close to 1,000.

1089. 1858-C AU-50+ About Uncirculated Sharp Struck, light planchet flake on rx. field. Scott states "Excessively Rare in unc." & valued AU\$800 then (3 years ago); present value?
1090. 1859-C EF-45 Sharp Extremely Fine, struck from usual rusted dies (Breen in his monograph conjectures possibly struck in 1860 or 1861). Scott states "Excessively Rare in unc." & values AU \$800 (3 years ago). **PLATE**

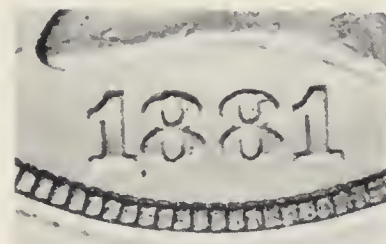

1091. 1860-C AU-50+ About Uncirculated with luster. Breen states "Weak reverses, and unevenly struck; rarer than the mintage suggests." Scott states "Extremely Rare in unc." Limited coinage of only 14,813 but many melted for gold during Civil War. Evidently an early striking, as it is sharper than on most we have seen over the years. Surely this choice specimen worth 1,500.

1092. 1861-C VF-20 Very Fine but surprisingly free of abrasions which many seem to have in this grade. Possibly carried as a "Lucky Piece" during the Civil War by a Confederate soldier. Very few of the mere 6,879 struck seem to have survived. A number were struck by the CONFEDERATE STATES OF AMERICA, after seizure of the mint. **Popular** as a "CONFEDERATE COIN"! Its present rarity is confirmed by the fact that none have appeared in major sales in recent years! The only specimen we have seen in the past year or so was a "Fine" one at \$1,500; present value for this superior coin in the current stronger market? **COLOR PHOTO**

PLATINUM 3-6-12 RUBLES OF RUSSIA

Russia affords us the only example of platinum coins actually being struck for circulation, and the 12, 6 and 3 Ruble coins of this metal are highly prized.

At the time platinum was discovered in the Ural Mountains it was worth so much less than gold that a 3 Ruble platinum coin weighing 10.3600 grams was the equal of a 3 Ruble gold coin weighing only 3.4900 grams. As a matter of fact, gold coins began to be counterfeited in platinum or struck in platinum at government mints (unofficially) from original dies. The platinum coins were then gold plated, and since platinum is slightly denser than gold and passes the same chemical tests as gold does, the gilded coins became indistinguishable from all-gold coins. These platinum coins are also highly prized.

GT. BRITAIN MAUNDY Coinage 1938

1420. Involved in this lot is an almost complete recipient's package. The white pouch with red drawstring contained the 43 pence in Maundy given to each mendicant. This is 4 complete 1938 sets plus an extra 3d. The amount corresponds to the monarch's due at distribution. Also enclosed are the red pouch with white drawstring which contained a 1937 crown (not available) as redemption of Maundy garments. The white pouch with green string contained an amount for food. This is instead of an elaborate meal which was served to the recipients in earlier times. An interesting and educational lot. 4 pcs. 250.

PERSONALIZED INVESTMENT SERVICE

Many of our auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we developed the Kagin Numismatic Investment Program—a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first degree conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Kagin's is particularly noted for:

U.S. currency—We edit and publish the Donlon Catalog of Large Size United States Currency 1861 to 1923. Our currency Investment Program includes only Choice and Superb Notes selected from the largest inventory of U.S. Currency available.

Pioneer and Territorial Gold—Don Kagin is currently writing the book that will be the new guide for Pioneer and Territorial Gold. When the book is published, rarity ratings will be drastically changed on a number of coins, and there will be fewer "bargains" available.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

Inclusion in Keogh Retirement Plans and Individual Retirement Accounts

Pension Funds

Numismatic Tax Counseling

Personal consultations

Personalized programs designed to fit your individual needs.
